Königstädter Straße 72-82
65428 Rüsselsheim

11

Where we come from

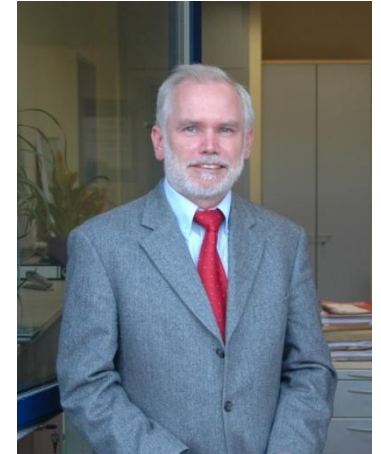

- Rüsselsheim... in the heart of Europe 😊
- 65.000 inhabitants, near Frankfurt / Main
- WHS: one of the largest schools in the Rhine-Main-area

Facts about the region

- international atmosphere, Opel automobiles and many logistics companies are based here
- Although there is lots of industry and cities around here, the region also offers great nature sites as the rivers Main and Rhine, the mountain ranges Taunus and Odenwald and the Rheingau, a region famous for its wine-growing.
- the cities of Rüsselsheim, Raunheim and Kelsterbach are working together to settle down some more (automotive-) industry around here and they have been quite successful in the last years

WHS basics

- Headmaster Mr. Peter Querbach
- More than 2.900 students
- About 160 teachers
- More then ten sorts of schools, divided in seven departements, each department has a „little headmaster“ called „Abteilungsleiter“ ... we try to explain the German school-system in a few minutes 😊

Mrs. Sevda Demir

- Education: Mechanical and Process Engineer, M. Sc.
- Teacher since 2016
- Courses/classes:
Mathematics
Metal technology

Mrs. Sonja Schmithals

- teacher since 15 years
- „Abteilungsleiterin“ since 2017
- subject: economics
- member of the school administration team
- responsible (together with approximately 15 more colleagues in my team) for international projects
- organisation and development of 3 types of schools with 50 colleagues and 325 pupils

Courses we offer – part 1

- Vocational training in the (so called) dual or part-time system (typical for Germany): forwarding agents, warehousing, sales personnel, metal workers, firefighters, security (EQF 3 + 4)
- Full-time vocational training courses: multilingual secretaries (English & French/Spanish), IT assistants, child care (EQF 4)
- High school leading to university entry with vocational subjects: business and administration, mechatronics and prospective social work/health care (EQF 4)

Courses we offer – part 2

- Middle school exam courses with 4 different vocational focus (EQR 3)
- Fulltime and part-time post exam courses for child care, logistics, machine engineering and electrotechnics (EQF 6)
- integration courses for young migrants
- courses for handicapped students

our Concept

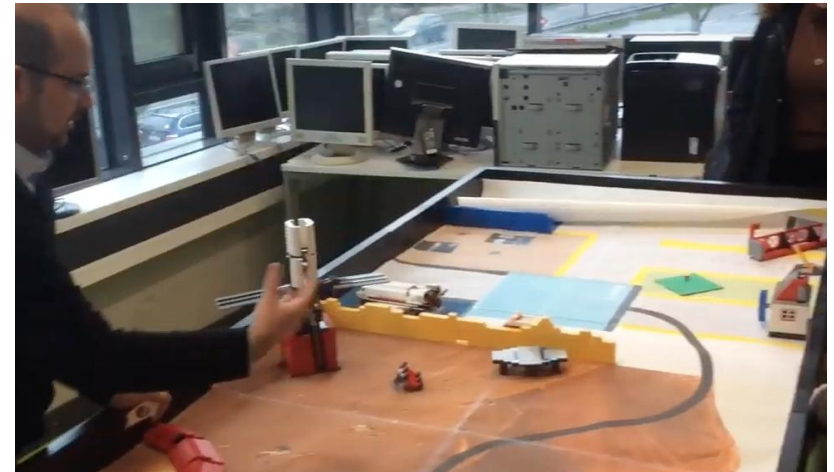

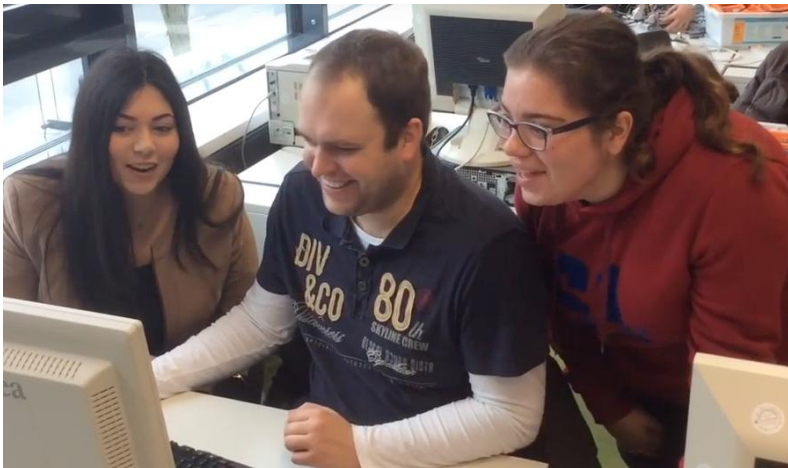

Our values

- Intensifying encouragement for social learning and teamwork
- support of development of social skills and enabling the acquisition of functional and methodic competences
- reaching this aim because all participants cooperate responsibly, respect each other and face each other with tolerance and confidence

Our mission

- need of new methods for learning and teaching
- need of action-oriented, self-aware and self-organized processes for learning and teaching
- self-evident and granted handling of media and computing

vision

We are committed to the principle of life-long-learning.

Pupils & students can complete their prospective private, job-related life and arrange it in an advancing process of change and learning.

Videos and Photos

International activities – part 1

- We are very busy in KA1-projects for pupils and teachers
- In 18/19 we sent 48 students for 5 – 8 weeks in the European Union for internships, we prepare them in an extra course for the Erasmus+ students
- Colleagues start advanced trainings with Erasmus+ in the EU
- We already have a long-term partnership with schools in Portugal, Netherlands and France. We would love to have a partner in northern Europe 😊

International activities – part 2

- We applied for a KA2 project with our partnerschool in Portugal and partners in Italy and Croatia about problem-solved learning... we are waiting for the result
- We will soon be a so called “ambassador school of the European parliament”, the process for certification is successful finished

Our goal ...

brief and not only with international activities

- We promote collaboration excellence and quality for our school-community.
- We encourage mental and physical mobility of pupils, students and teachers, we are open-minded, communicate with others, experience diversity.
- We combine theory and practice as often as possible.
- We develop intercultural competence, personality, teamwork skills, problem-solved-working to prepare our pupils for the job.

Our goal ... brief and not only with international activities

- We make our students more attractive as future employees and last but not least....

... we educate our students to be active global citizens!!!
